**RE: AB 2002 Local government assistance: Regional Early Action Planning Fund
As Introduced 2/17/2026 – Notice of Support**

Dear Assemblymember Haney:

On behalf of the City of Glendora, I am pleased to express our support for AB 2002 (Solache), which would codify the Regional Early Action Planning (REAP 1.0) program and establish a reliable framework to support local and regional housing planning efforts.

Like many communities across California, Glendora continues to navigate the increasing complexity of housing planning requirements while striving to maintain the character and livability that define our community. As a full-service city located at the base of the San Gabriel Mountains, we are committed to thoughtful, balanced growth that expands housing opportunities while preserving the character and sense of community that define Glendora.

AB 2002 provides critical support to help cities like Glendora meet evolving Regional Housing Needs Assessment (RHNA) requirements. These mandates, while important, require significant technical capacity, data analysis, and coordination that can strain local resources. Programs like REAP have proven to be valuable tools in helping jurisdictions modernize planning efforts, improve housing readiness, and align local plans with state priorities.

For Glendora, continued access to these resources is essential as we advance key initiatives such as our upcoming General Plan Update and ongoing efforts to increase housing options at all income levels. Codifying REAP ensures that cities have the sustained support needed to effectively plan for growth, meet state mandates, and deliver meaningful housing solutions for our residents.

For these reasons, the City of Glendora respectfully supports AB 2002 and appreciates your leadership on this important measure.

Sincerely,

A handwritten signature in black ink that reads "David Fredendall".

David Fredendall
Mayor
