Exhibit A

**CITY OF GLENDORA
STATEMENT OF INVESTMENT POLICY
FISCAL YEAR 2026**

INTRODUCTION

The City Council of the City of Glendora (also acting as the Successor Agency to the Glendora Community Redevelopment Agency together, the “City”) recognizes its responsibility to prudently direct the investment of the City’s funds on behalf of the City’s existing and future residents. The City Council further recognizes that the City’s investment assets are essential to the City’s financial strength, the effective implementation of long-range financial plans and, ultimately, its ability to respond to the needs of the community.

This Statement sets forth policies which shall govern the investment of the City’s funds. It will be used by the City’s Treasurer, other City officials and staff, as well as all other third-party providers of investment or investment related services. Its purpose is to direct the prudent investment and protection of the City’s funds and investment portfolio.

1. POLICY

It is the policy of the City to invest public funds in a manner which will provide the highest investment return with maximum security while meeting the daily cash flow demands of the City and conforming to all state and local statutes governing the investment of public funds; and meet the objectives of the Policy, in priority order of Safety, Liquidity and Return on investment.

2. SCOPE

This Investment Policy applies to all financial assets of the City of Glendora. The following funds are covered by this Investment Policy and are accounted for in the City's Annual Comprehensive Financial Report (ACFR) on a pooled basis:

- A) General Fund
- B) Special Revenue Funds
- C) Capital Project Funds
- D) Enterprise Funds
- E) Internal Services Funds
- F) Trust and Agency Funds
- G) Any new funds created by the City Council, unless specifically exempted

The investment of bond proceeds is governed by the permitted investment section of bond documents. If the bond documents are silent as to the investment of the proceeds, the proceeds will be invested in accordance with this Policy.

Investment Policy for Fiscal Year 2026**Exhibit A**

3. PRUDENCE

The standard of prudence to be used by investment officials shall be the “Prudent Investor Standard” (California Government Code Sections 53600.3) and shall be applied in the context of managing an overall portfolio. Investments shall be made with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of City, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the City.

Investment officers acting in accordance with written procedures and the investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security’s credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

4. OBJECTIVE

The City’s cash management system is designed to accurately monitor and forecast revenues and expenditures to meet the short and long-term cash flow demands of the City thus enabling the City Treasurer to fully invest funds. To achieve this objective, the portfolio will be structured to provide safety of principal and liquidity, while then providing a return on investments. The City Treasurer will maintain a diversified investment portfolio to accomplish the primary objectives of safety, liquidity, and return on investments (in that order of priority).

- **Safety:** The safety or risk associated with an investment refers to the potential loss of principal, accrued interest, or a combination of these. The City seeks to mitigate credit risk by prequalifying and continuously monitoring financial institutions with which it will do business and by scrutiny of the credit worthiness of the investment instruments as well as the institutions. Such resources as Fitch, Moody’s and Standard and Poor’s rating services may be utilized for this review. The City seeks to mitigate interest rate risk through diversification of instruments as well as maturities.
- **Liquidity:** The City’s investment portfolio will be structured with sufficient liquidity to allow the City to meet its anticipated cash requirements. This will be accomplished through diversity of instruments to include those with active secondary markets, those which match maturities to expected cash needs and the State Local Agency Investment Fund (LAIF) with immediate withdrawal provisions.
- **Return on Investments:** The City’s investment portfolio shall have the objective of attaining a comparative performance measurement or an acceptable rate of return throughout budgetary and economic cycles. These measurements should be commensurate with the City’s investment risk constraints identified in the Investment Policy and the cash flow characteristics of the portfolio.

5. DELEGATION OF AUTHORITY

Authority to manage the City's investment program is derived from the following:

The City Council has authorized the City Treasurer to invest City funds in accordance with California Government Code Section 53600, et. seq.

In the City Treasurer's absence, and subject to City Council approval, the City Treasurer may assign investment responsibilities to the City Manager. The City Treasurer will provide prior written notification to the City Manager and the City Council regarding the assignment of responsibilities. In the event the City Treasurer is unable to assign responsibility, the City Manager will select a designee. In addition, at the discretion of the City Treasurer, cash monitoring and investment responsibilities can be assigned to a designated assistant.

The responsibility for establishing, monitoring and maintaining a strong system of investment controls and directing an independent audit of the investment function is delegated to the City Manager. The City Manager's designee(s) may assist in carrying out these functions.

The City Council's primary responsibilities over the investment function include establishing investment policies, annually reviewing such policies, reviewing monthly investment reports issued by the Treasurer and authorizing any deviations from the City's Investment Policy.

6. INVESTMENT PROCEDURES

The City Treasurer shall establish written investment policy procedures for the operation of the investment program consistent with this policy. The procedures should include reference to safekeeping, wire transfer agreements, banking service contracts and collateral/depository agreements.

7. ETHICS AND CONFLICTS OF INTEREST

The City Treasurer and other employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program or which could impair their ability to make impartial investment decisions. The City Treasurer and investment officials must provide a public disclosure document by the specified deadline each year or when material interest in a financial institution or personal investment position requires it. Furthermore, investment officials must refrain from undertaking personal investment transactions with the same individual(s) employed by the financial institution with whom business is conducted on behalf of the City. During the course of the year, if there is an event subject to disclosure that could impair the ability of the City Treasurer or investment employees to make impartial decisions, the City Council will be notified in writing within 10 days of the event.

Investment Policy for Fiscal Year 2026**Exhibit A****8. AUTHORIZED FINANCIAL DEALERS AND INSTITUTIONS**

A determination should be made to ensure all approved broker/dealer firms, and individuals covering the City have at least 5 years in-depth experience working in institutional fixed income. In addition, the broker/dealer firms should have the ability to meet all of their financial obligations in dealing with the Public Agency. The firms, and individuals covering City, should be knowledgeable and experienced in Public Agency investing and the investment products involved. No public deposit shall be made except in a qualified public depository as established by state laws.

All financial institutions and broker/dealers who desire to become qualified bidders for investment transactions must supply the City Treasurer with the following:

- Audited Financial Statements,

I. Local Agency Investment Fund demand deposit

The Local Agency Investment Fund (LAIF) was established by the State to enable treasurers to place funds in a pool for investment. Each agency is limited to an investment of \$75 million per account. The City may use this fund to the current \$75 million limit for short term liquidity investment, and yield when rates are declining as funds are available upon demand. Interest is paid quarterly.

J. Repurchase Agreement

Repurchase agreement means a purchase of securities by the City pursuant to an agreement by which the counterparty seller will repurchase the securities on or before a specified date and for a specified amount and the counterparty will deliver the underlying securities to the City by book entry, physical delivery, or by third-party custodial agreement. The transfer of underlying securities to the counterparty bank’s customer book-entry account may be used for book-entry delivery. Investments in repurchase agreements are allowable but must comply with current Government code and a Master Repurchase Agreement must be signed with the bank or dealer.

The market value of securities that underlay a repurchase agreement shall be valued at 102 percent or greater of the funds borrowed against those securities and the value shall be adjusted no less than quarterly. Since the market value of the underlying securities is subject to daily market fluctuations, the investments in repurchase agreements shall be in compliance if the value of the underlying securities is brought back up to 102 percent no later than the next business day. The term does not exceed one year.

K. Mutual Funds

Mutual Funds are limited to the following:

However, no more than 10 percent of the City's funds may be invested in shares of beneficial interest of any one mutual fund pursuant to paragraph (1). This limitation does not apply to money market mutual funds.

L. Investment Pools

A thorough investigation of a pool/fund is required prior to the City's investment and on a continual basis. The City currently permits the use of the Local Agency Investment Funds (LAIF) along with certain mutual funds. Any additional pool shall provide the following:

- A description of eligible investment securities, and a written statement of investment policy and objectives.

- A description of who may invest in the program, how often, and what size deposits and withdrawals are allowed
- A schedule for receiving statements and portfolio listings.

If repurchase agreements are legal and authorized by policy, a Master Repurchase Agreement must be signed with the bank or dealer.

11. COLLATERALIZATION

Collateralization will be required on two types of investments, certificates of deposit and

Investment Policy for Fiscal Year 2026**Exhibit A**

repurchase agreements. The Collateralization for the certificates of deposit shall be defined by Section 53630 et. seq. and the repurchase agreements will be at 102 % or greater of market value of principal and interest.

Collateral will always be held by an independent third party with whom the City has a current custodial agreement. A clearly marked evidence of ownership (safekeeping receipt) must be supplied to the City and retained. The right of collateral substitution is granted.

12. REVIEW OF INVESTMENT PORTFOLIO

The securities held by the City of Glendora must be in compliance with the Authorized and Suitable Investments at the time of purchase. From time to time, some securities may not comply with the Authorized and Suitable Investments limits subsequent to the date of purchase. Therefore, the Treasurer shall at least monthly review the portfolio to identify those securities that do not comply. The Treasurer shall establish procedures to report to the council major and critical incidences of noncompliance through the review of the portfolio.

13. PROHIBITED INVESTMENTS AND TRANSACTIONS

The City shall be in full compliance with 53601.6 regarding prohibited investments.

- The City shall not invest public monies in financial instruments that are not authorized under this Statement of Investment Policy
- The City shall not engage in securities lending, short selling, or other hedging strategies.
- The City shall not invest any funds in inverse floaters, range notes, or interest-only strips that are derived from a pool or mortgages or reverse repurchase agreements.
- The City shall not invest any funds in any security that could result in zero interest accrual if held to maturity.
- The City shall not purchase or sell securities on margin.
- The City shall not purchase any Reverse Repurchase Agreements

It is acknowledged investment pools in which the City invests may invest funds in the securities set forth in this subdivision.

14. SAFEKEEPING AND CUSTODY

All security transactions, including collateral for repurchase agreements, entered into by the City shall be conducted on a delivery-versus-payment (DVP) basis or debit checking basis, whichever is more beneficial to the City. All securities purchased or acquired shall be delivered to the City by book entry, physical delivery or by third party

Investment Policy for Fiscal Year 2026**Exhibit A**

custodial agreement evidenced by safekeeping receipts. The only exception to the foregoing shall be depository accounts and securities purchases made with: (i) LAIF, (ii) other permitted investment pools, and (iii) money market mutual funds since the purchased securities are not deliverable.

15. DIVERSIFICATION

The City's portfolio will be suitably diversified by type and institution in an effort to reduce portfolio risk while attaining market average rates.

- Security Type and Institution - U.S. Treasury securities and authorized pools, and any portfolio or institutional limits shall comply with the California Government Code. Investments are further limited by specific language relating to each investment type as stated in Section 9 of this Policy.
- Maximum Maturities - To the extent possible, the City Treasurer will attempt to match investments with anticipated cash flow requirements. The City's portfolio will not be directly invested in securities which mature more than five years from the date of purchase. Additionally, see Section 16 of this policy.

Except for U.S. Treasuries, Agencies, Supranational, FDIC/ NCUSIF -insured Certificate of Deposits, authorized pools, and money market funds, no more than 5 percent of the City's total investment portfolio will be invested in a single security type or with a single financial institution.

16. MAXIMUM MATURITIES

To the extent possible, the City will attempt to match its investments with anticipated cash flow requirements. On general funds, per CA Code, the City will not directly invest in securities maturing more than 5 years from the date of purchase unless approval is given by the City Council 90 days prior to investing.

17. INTERNAL CONTROL

The Treasurer shall establish an annual process of independent review by an external auditor. This review will provide internal control by assuring compliance with the City's Investment Policy and for establishing internal controls that are designed to prevent losses due to fraud, negligence, and third-party misrepresentation. Accordingly, the City Treasurer shall establish written procedures for the operation of the City's investment program that are consistent with the provisions of this Investment Policy.

Internal controls deemed most important shall include (but not limited to): avoidance of collusion; separation of duties and administrative controls; separating transaction authority from accounting and record keeping; custodial safekeeping; clear delegation of authority; management approval and review of investment transactions; specific limitations regarding securities losses and remedial action; written confirmation of telephone transactions; documentation of investment transactions and strategies; and

Investment Policy for Fiscal Year 2026**Exhibit A**

monitoring of results.

18. PERFORMANCE STANDARDS

The investment portfolio shall be designed with the objective of obtaining at least a market rate of return during budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow needs.

The City's investment strategy is passive. Passive investment portfolio management generally indicates the City Treasurer will purchase an instrument and hold it through to call or maturity, and then reinvest the monies. Although the City's investment strategy is passive, this will not restrict the Treasurer from evaluating when the sale and subsequent purchase of a security (known as a swap) are appropriate or if the sale of an instrument is prudent prior to final maturity. Given this strategy, the basis used by the City Treasurer to determine whether market yields are being achieved shall be the Local Agency Investment Funds (LAIF) with the understanding that LAIF lags the market on both the upside and downside of interest rate movements and investing the portfolio accordingly.

19. REPORTING

The City Treasurer shall provide the City Council monthly investment reports which provide a clear picture of the status of the current investment portfolio. The management report shall include a listing of individual securities held at the end of the reporting period by authorized investment category, the average life and final maturity of all investments listed, coupon rate, discount or earnings rate, Par Value, Amortized Book Value Market Value of each investment in the portfolio, including funds managed for the City of Glendora by third parties. The report will also include the source of the portfolio valuation. As specified in California Government Code Section 53646 (e), if all funds are placed in LAIF, FDIC-insured accounts and/or in a county investment pool, the foregoing report elements may be replaced by copies of the latest statements from such institutions. The City Treasurer shall maintain a complete and timely record of all investment transactions.

20. INVESTMENT POLICY ADOPTION

The City's investment policy shall be reviewed and adopted annually by resolution of the Glendora City Council with or without changes.

A secondary market means these instruments are actively traded, i.e., they are bought and sold daily. Bonds are issued for 15-year and 30-year maturities with interest paid semi-annually. Interest is computed on a 30/360 day basis. Notes are issued with maturities of less than one year with interest paid at maturity.

Freddie Mac's statutory mission is to provide stability in the secondary market for home mortgages, to respond appropriately to the private capital market and to provide ongoing assistance to the secondary market for home mortgages by increasing the liquidity of mortgage investments and improving the distribution of investment capital available for home mortgage financing. Maturity can be from 1 to 30 years. These loans can be either set at a fixed rate or a variable rate.

LOCAL AGENCY INVESTMENT FUND (LAIF): LAIF was established by the State to enable treasurers to place funds in a pool for investment. Each agency is limited to an investment of \$65 million per account.

LIQUIDITY: A liquid asset is one that can be converted easily and rapidly into cash without a substantial loss of value. In the money market, a security is said to be liquid if the spread between bid and asked prices is narrow and reasonable size can be done at those quotes.

MARKET VALUE: The price at which a security is trading and could presumably be

purchased or sold.

A master agreement will often specify, among other things, the right of the buyer-lender to liquidate the underlying securities in the event of default by the seller borrower.

MATURITY: The date upon which the principal or stated value of an investment becomes due and payable.

MONEY MARKET: The market in which short-term debt instruments (bills, commercial paper, bankers’ acceptances, etc.) are issued and traded.

NATIONALLY RECOGNIZED STATISTICAL-RATING ORGANIZATION (NRSRO): Only commercial paper of “prime” quality of the highest ranking or of the highest letter and numerical rating as provided for by a nationally recognized statistical-rating organization.

NATIONAL CREDIT UNION SHARE INSURANCE FUND (NCSIF): The National Credit Union Administration administers the NCSIF that insures certificates of deposits with Credit Unions up to \$250,000 per entity.

PORTFOLIO: Collection of securities held by an investor.

PRIMARY DEALER: A group of government securities dealers who submit daily reports of market activity and positions and monthly financial statements to the Federal Reserve Bank of New York and are subject to its informal oversight. Primary dealers include Securities and Exchange Commission (SEC) – registered securities broker-dealers, banks, and a few unregulated firms.

PRUDENT PERSON RULE: An investment standard. In some states the law requires that a fiduciary, such as a trustee, may invest money only in a list of securities selected by the custody state – the so-called legal list. In other states the trustee may invest in a security if it is one which would be bought by a prudent person of discretion and intelligence who is seeking a reasonable income and preservation of capital.

QUALIFIED PUBLIC DEPOSITORIES: A financial institution which does not claim exemption from the payment of any sales or compensating use or ad valorem taxes under the laws of this state, which has segregated for the benefit of the commission eligible collateral having a value of not less than its maximum liability and which has been approved by the Public Deposit Protection Commission to hold public deposits.

RATE OF RETURN: The yield obtainable on a security based on its purchase price or its current market price. This may be the amortized yield to maturity on a bond the current income return.

REPURCHASE AGREEMENT (RP OR REPO): A holder of securities sells these

securities to an investor with an agreement to repurchase them at a fixed price on a fixed date. The security “buyer” in effect lends the “seller” money for the period of the agreement, and the terms of the agreement are structured to compensate him for this. Dealers use RP extensively to finance their positions. Exception: When the Fed is said to be doing RP, it is lending money, or increasing bank reserves.

REVERSE REPURCHASE AGREEMENT (REVERSE REPO): A reverse-repurchase agreement (reverse repo) involves an investor borrowing cash from a financial institution in exchange for securities. The investor agrees to repurchase the securities at a specified date for the same cash value plus an agreed upon interest rate. Although the transaction is similar to a repo, the purpose of entering into a reverse repo is quite different. While a repo is a straightforward investment of public funds, the reverse repo is a borrowing.

SAFEKEEPING: A service to customers rendered by banks for a fee whereby securities and valuables of all types and descriptions are held in the bank’s vaults for protection.

SECURITIES & EXCHANGE COMMISSION: Agency created by Congress to protect investors in securities transactions by administering securities legislation.

TIME DEPOSITS: are non-negotiable and placed with commercial banks and savings and loan agencies in California. A time deposit is a receipt for funds deposited in a financial institution for a specified period of time at a specified rate of interest. Deposits up to \$250,000 (referred as Jumbo CDs) per institution are insured by the government Federal Deposit Insurance Corporation (FDIC). Deposits in excess of the federal deposit insurance limit are required to be collateralized as specified under Government Code Section 53630 et seq.

TREASURY BILLS: A non-interest-bearing discount security issued by the U.S. Treasury to finance the national debt. Most bills are issued to mature in three months, six months, or one year.

TREASURY BONDS: Long-term coupon-bearing U.S. Treasury securities issued as direct obligations of the U.S. Government and having initial maturities of more than 10 years.

TREASURY NOTES: Medium-term coupon-bearing U.S. Treasury securities issued as direct obligations of the U.S. Government and having initial maturities from two to 10 years.

UNIFORM NET CAPITAL RULE (SEC Rule 15C3-1): Securities and Exchange Commission requirement that member firms as well as nonmember broker-dealers in securities maintain a maximum ratio of indebtedness to liquid capital of 15 to 1; also called net capital rule and net capital ratio. Indebtedness covers all money owed to a firm, including margin loans and commitments to purchase securities, one reason new public issues are spread among members of underwriting syndicates. Liquid capital includes cash and assets easily converted into cash.

YIELD: The rate of annual income return on an investment, expressed as a percentage. (a) **INCOME YIELD** is obtained by dividing the current dollar income by the current market price for the security. (b) **NET YIELD** or **YIELD TO MATURITY** is the current income

You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below.
